A Preferred Partner At Learner's Planet, we share a vision with every responsible institution and individual committed to provide excellence in education and willing to deliver outstanding results. We want to work in synergy with institutions, parents and teachers, to help mould young students into future beacons of change so they become effective leaders. Our online virtual learning environment is designed to perfectly complement physical tutoring in the class room. As we know, each student is individually different and therefore we are here to offer excellent solution for this. Learners' Planet offers a rich variety of learning resources and tools for the students so they can learn and, while learning, they can have fun by playing games that test and educate. Learner's Planet is a rich source of online content, video lectures, mock examinations, educational games and much more. We support and complement learning in a physical classroom with our virtual online environment where students can brush up concepts, revise their lessons and stay apace of the rest of the class conveniently. A subscription for Learner's Planet would bring tons of learning material at your mouse click! It is our aim to establish strong and lasting relationship with parents who wish to provide their children unmatched benefit of a virtual environment like ours for the years of foundation and prepare them to take challenges lie ahead in this immense competitive world. To achieve this, we are there with you to support 24 x 7, 365 days. Why Learner's Planet! What we offer! How are we different! – Read more to know more. Alka Maheshwari Founder & CEO Introducing A fun lesson in new-age education We believe... "Knowledge is not something to be packed away in some corner of our brain, but what enters into our being, colors our emotion, haunts our soul and is as close to us as life itself". – Dr. Sarvapalli Radhakrishnan Expect the Advantage Today's world is fiercely competitive. We live in a challenging era where students have so much to achieve and so little time at their disposal. In such a fast-paced environment, how does one empower these youngsters to move confidently ahead and take the lead? The answer lies in a strong learning foundation based on engagement, fun and interest. Today's students need more than just books; they need to be effectively captivated. Their world is a technologically advanced one and we at Learners' Planet believe that we can harness that technology to take the learning experience to a whole new level. Revolution in education Ours is a revolutionary educational system, created by experienced educators and dedicated academicians. We have developed cutting-edge and innovative learning resources that capture attention, generate curiosity and ensure that students have plenty of fun while learning. We deliver this experience via a user-friendly and easy to navigate interface – [www.learnersplanet.com](http://www.learnersplanet.com) Our website lays a solid foundation upon which knowledge levels are built. It also acts as a ready-reckoner for students who want a quick and interesting refresher of concepts. Starting from Kindergarten, right up to Class 10, our lessons span a range of syllabi and subjects. A role beyond the classroom At Learners' Planet, we understand the importance of capturing and retaining the interest levels of your children. We

know that a skilled teacher will always achieve this in the classroom, however, even good teachers will appreciate new resources and tools that assist them with keeping engagement levels high. That's why we use attractive visual tools and enjoyable games and puzzles, in addition to interactive online tests, quizzes, modules and worksheets. In this way we try to act as a teacher's right hand, always there to keep the momentum going. Our objective is to transform the learning process on continuous basis by offering an effective and well-planned content mingled with modern methods of education with a professional outlook. This synergy results in a platform that both teachers and students can trust and benefit from. A subscription will take you far. Today's teachers have a heavier load to bear when it comes to instilling confidence and creativity in their students. In such a situation, it could be to the advantage of both student and teacher, to make good use of technology-based, new-age tools and resources. To this end, Learners' Planet, India's largest education web portal, is designed to offer such innovative learning aids. That's why we believe that it's a good decision to subscribe to our online content. Just log on to our website and sign up, to give your students an educational boost they deserve. Make the move from average to outstanding. Inspiring change. A teacher is a child's role model and a good teacher will always be able to stimulate the imaginations of their students while inspiring them to greater heights of achievement. So when we say that we can help you further captivate your students and help them move ahead even faster, we do mean it. You will find interesting and exciting new learning resources on our web portal, that we know will be of great interest to you and your students. Starting with delightful lessons for children in Kindergarten and ending with excellent educational content for Grade 12 students, Learners' Planet is your one-stop solution for high quality academic content, right through those all-important foundation years.
